

# **BRONINGTON COMMUNITY COUNCIL MEETINGS SUSPENDED**

In line with Government advice and following discussions with the Chairman it has been agreed that Bronington Community Council will not hold any formal Community Council meetings during April and May.

All local councils have been asked to stop holding any physical meetings or gatherings during this time. This includes annual parish and council meetings. These are extraordinary times, and they call for extraordinary measures. The health and safety of councillors and local communities is our first concern.

This does not however mean that the Council will shut down, it will continue to operate and should you wish to contact Bronington Community Council please do so by phone or email.

The Council will consider making arrangements to meet informally via Skype and will also continue to receive information via phone and email.

We will regularly review the situation and advise of any changes.

*Ruth Shackleton*  
Clerk
