Our Council Plan 2023-2028

Our new Council Plan will outline our priorities for the next five years to help us achieve our vision, to contribute to Wales' well-being goals, and to ensure that everybody is treated fairly. We want to identify specific outcomes on which we can focus and against which we can measure progress. These are the outcomes which we believe will be of most benefit to our communities.

Our Council Plan is our key strategic document for the next five years and will inform decisions about how we allocate financial and other resources. Our other important services will still be delivered and details about those will be included within our internal business and service plans.

In order to develop draft priorities for our new Council Plan 2023-2028, we have looked at a range of evidence including:

- Published data and statistics, for example, Census 2021 data
- What we know about our communities from local evidence and research about people's health and well-being*
- Feedback from involvement with our communities over the past year
- Progress against our existing council priorities and other work areas
- Welsh Government priorities

Our six draft priorities, on which we want to focus our work for 2023-2028 are:

- Developing and Decarbonising our Environment
- Developing the Economy
- Ensuring a Modern and Resilient council
- Ensuring Wrexham is a Fairer and Safer Place
